

**TEMPLATE FOR BEST PRACTICES;**  
**Family and schools inside/outside scholastic context**

**INTRODUCTORY NOTES:**

Dear partners

the goal of this collection of good practices is to:

- select virtuous work experiences with families in different countries;
- understand what are the recurrent elements that allow the involvement of families in social and training activities;
- analyze the forms of reception of families created by the various subjects in specific interventions.

Each partner will provide a **minimum of five practices** to be analyze and reported in the final Transnational Report.

**Deadlines:** please send us back by the **4 of March 2018**.

*Please, do not hesitate to contact us for any question or clarification you might need.*

*Thanks a lot for your collaboration!*

## 2- DESCRIPTION OF THE EXPERIENCE/INTERVENTION

<b>Justification of the intervention</b>	We are located in one of the poorest neighbourhoods and with a big lack of services as well as with a high level of dropout so this intervention aims to empower the families and the youngsters to have tools for surpassing problems.
<b>Description of the intervention</b>	The intervention aims to provide the families and the kids with tools to overpass difficulties and to learn better ways to interact with the parents and the parents with them.
<b>Key objectives</b>	The key objectives are to conduct to improve the family organization, the distribution of the tasks that must be done (respecting gender equality) and favor the commitment and support of parents in the tasks of the children and their adaptation to the school environment. And, to finish, make sure parents and children can live together leisure moments, in a healthy way, using the resources provided by the community environment. All These actions contribute to emphasizing the values of family life and the importance of a good relationship-among its members in order to create an atmosphere favorable for the personal development of the child.
<b>Activities:</b>	Intervention with the parents Intervention with the children Intervention both parents and children All this interventions are useful to provide tools for them to assure the good and favourable atmosphere.
<b>Figures of the intervention</b>	The professionals are psychologists, speech therapist, and social workers.
	They use their own tools and methodology depending in the

<b>Methodologies</b>	intervention based on the family needs.
<b>Tools and methods</b>	The tools and methodology are based on the needs of each professional attending to the needs of the kid and the family or in the service they are providing.
<b>Outputs</b>	The outputs are related to the empowerment of the family and the children.
<b>Outcomes</b>	The families with less resources are allowed to have the aid they need for their kids when they need it, this give the opportunity to the students to continue with their studies and help them so they don't leave school.
<b>Impacts</b>	The impact is not only on the children but also on the parents because it provides them with tools that empower themselves for living a better life. The impact is also in the community, these persons are able now to search for jobs and to contribute in a better way to the society.

### 3- PROCESS FACTOR AND INTERVENTION ASSESSMENT

<b>Intervention design</b>	This is and intervention designed from a bottom up methodology that provides information from the needs of our participants. It was done from the territory.
<b>Equipe intervention: composition and relations</b>	The basic figure is the psychologist and is involved and support with all the resources of the foundation, as well as the work in team with social services, schools, psychological-pedagogical teams.
<b>Intervention assessment</b>	The intervention is evaluated by the parameters of impact in the population guide by the fundacio Bancaria la Caixa.
<b>Strengths and weakness</b>	<p>Strengths:</p> <ul style="list-style-type: none"> <li>▪ Networking homogenized where the center of all the work is the family and their children.</li> <li>▪ Huge offer of services and goods to give answer to the needs of the families and their children.</li> <li>▪ Give the proper answer that is not covered by the territory through the entities or public services.</li> </ul> <p>Weakness:</p> <ul style="list-style-type: none"> <li>▪ Too much burocracy work, a lot of documents to manage in the procedures of the program.</li> </ul>

	<ul style="list-style-type: none"> <li>▪ Economical criteria for getting in the program are too strict.</li> </ul>
<b>Success factors</b>	<ul style="list-style-type: none"> <li>• Consolidation of a work in a territorial network, with the vision and the collaboration of all the territorial stakeholders in order to stablish synergies with a multifactorial view.</li> <li>• Access to a professional profile (psychologist, speech therapist, educational reinforce...) that in other case the core population of the project will have very few access.</li> <li>• Increase of the protection factors of the family.</li> <li>• Strategic vision and flexible in order to get adapted to the needs of the territory and from these needs the services are asked every year.</li> <li>• Constant Coordination between all the levels of the program for a good implementation of it.</li> </ul>
<b>Transferability</b>	<p>CaixaProinfància has been transferred to all Spain, it begin at 2007 in 11 cities and actually in 2018 has been implemented in 114 cities of Spain. In this moment the coordinators of Fundació Bancaria La Caixa that coordinate of the total state, each territory has a coordination for the territory through the coordinators of the city, each city one coordinator coordinates the coordinators of the network that are distributed in smaller sectors (in Barcelona's case each network has 2-3 neighborhoods). In this way it has been possible to implement all in all the Spanish territory in a homogenized way.</p>
<b>Sustainability</b>	<p>La Fundació La Caixa has the project of CaixaProinfància inside of its lines of work to eradicate the infants poorness is one of its principal axes of the Obra Social "La Caixa". This program has been implemented in the year 2007 and during these years has grown in number of cities as in budget.</p>
